THATCHAM ALARMS

7590 T2-1

THATCHAM CATEGORY 2-1 UPGRADE TU2 - 1361/1105
LCV APPROVED - TUL1-129/1105

The alarm uses wireless sensors, passive infrared to protect the interior and dedicated switches for all doors, windows, and lockers. It can be activated by remote control. When passengers are inside the vehicle, the infrared and ultrasonic sensors can be deactivated while the perimeter switches stay on to protect all windows and doors. The basic kit includes 1 x PIR and 1 x Magnetic Door contact. You may add additional switches if necessary, to a maximum of 50.

WIRELESS COMPATIBLE
